PROFESSIONAL SUMMARY

An aspiring Computer Science Engineering (CSE) student with a strong foundation in Java Full Stack Development, Object-Oriented Programming, and Data Structures & Algorithms. Experienced in backend development using Java, Spring Boot, REST APIs, and MySQL, with skills in building responsive front-end interfaces using React.js and integrating them with scalable backend services. A continuous and fast learner with a strong problem-solving mindset, hands-on project experience, and a genuine passion for exploring new technologies. Comfortable collaborating in Agile team environments to deliver functional, well-tested software.

EDUCATION

Sri Krishna College of Engineering and Technology(CGPA: 8.6) **2024 -- 2028**
B.E. Computer Science and Engineering

Srinivasa Vidhyalaya Matric Hr. Sec. School, Udumalpet (91%) **2023 -- 2024**
Class XII (Computer Science -- Maths)

PROFESSIONAL EXPERIENCE

Tourizo -- Tourism Booking Web Application - Frontend Development **Sep 2025 -- Nov 2025**

- Developed a responsive travel booking web application using React.js with reusable UI components and React Router navigation.
- Built destination search, filtering, and booking/contact forms with input validation.
- Improved overall application responsiveness and user experience.

Saloon Management System -- HGRD EduTech - Java Full Stack Development **Jan 2026 -- Feb 2026**

- Developed Home and User Management modules using Spring Boot and integrated them with a React.js frontend via REST APIs.
- Collaborated in an 8-member Agile development team, participating in sprint planning and code reviews.
- Performed testing and debugging to improve application stability and functionality.

PROJECTS

Campus Recruitment Management System | Java Full Stack

- Designed and developed a full-stack recruitment platform enabling student registration, job postings, and interview scheduling through RESTful APIs.
- Implemented JWT-based authentication and role-based access control for Admin, Recruiter, and Student modules.
- Built a scalable backend using the Controller-Service-Repository architecture, integrated with a React.js frontend, and automated interview scheduling with role-based dashboards.

Interviora -- AI Interview Trainer Agent | AI & Java Full Stack (IBM SkillsBuild AICTE Internship)

- Developed an AI-powered interview preparation platform using IBM watsonx Orchestrate and RAG to provide personalized technical, HR, and behavioral interview coaching.
- Designed AI agent workflows with a knowledge base to generate role-specific interview questions, analyze responses, and provide structured feedback for interview improvement.
- Integrated React.js, Spring Boot, REST APIs, and MySQL to build a scalable full-stack solution supporting AI-driven interview assistance and personalized learning recommendations.

CERTIFICATIONS

- Data Structures & Algorithms -- Infosys Springboard
- Java Programming: Advanced OOP, Multithreading & Collections -- Infosys Springboard
- Frontend Development with React: Components, Hooks, State Management -- freeCodeCamp
- Backend Development with Spring Boot: RESTful API Development -- Udemy
- SQL & Database Management: Query Optimization & Design -- Coursera
- Git & Version Control: Branching Strategies & Collaborative Workflows -- Coursera

TECHNICAL SKILLS

Languages & Database: Java, MySQL
Backend: Spring Boot, REST APIs, JWT Authentication
Frontend: React.js, JavaScript, HTML5, CSS3
Tools & Platforms: Git, GitHub, VS Code, Figma, Antigravity
Core Concepts: OOP, Data Structures & Algorithms, RESTful API Design, Agile/Scrum

ACHIEVEMENTS

- Finalist -- Dr. Dev Hackathon, SRM
- Active problem-solver on LeetCode, GeeksforGeeks, and HackerRank (profiles linked above)
